

FIELD FABRICATION AND REPAIRS

At Feldmeier Equipment, we're here to serve you. That means going beyond design and manufacturing to offer the field service and replacement parts you need, no matter where you are located. Our team of certified, experienced welders and finishers delivers the same quality craftsmanship you have come to expect from our factory-built equipment.

We service Feldmeier products and those manufactured by other companies. In addition to pressure vessel repairs, Feldmeier specializes in:

- Vessel refinishing
- On-site spot electropolishing
- Adding & changing fittings
- Heat transfer repairs
- On-site CIP testing
- Retrofit agitation design & installation
- Field fabricated vessels
- In-situ on-site electropolishing

With 5 facilities across the United States, Feldmeier is positioned to provide timely shipment of replacement parts and field service.

- Syracuse, NY
- Little Falls, NY
- Shell Rock, IA
- Montgomery, AL
- Fernley, NV
- Canada
