

# BREWERY, WINERY AND DISTILLERY TANKS

With Feldmeier Equipment, you can expect quality in volumes. Our team has more than 60 years of experience designing and welding custom vessels for a variety of applications in brewing, winemaking and distilling. All vessels are fabricated to ASME code with 3-A compliance for finish at one of our facilities across the United States. We can also come to you and fabricate a solution in-place at your location.

## Capabilities:

- Shop-fabricated sizes up to approximately 2,000 BBL (62,000 Gallons)
- Field-fabricated sizes greater than 2,000 BBL, or fabricated in-place for space restrictions
- Optional ASME stamped vessels
- ASME stamped cooling jackets for lasting performance
- Custom cooling jacket designs for specific applications
- In-house fabrication of most replacement parts

## Our brewery, winery and distillery solutions include vessels for:

- |                |                     |
|----------------|---------------------|
| ■ Fermentation | ■ Water             |
| ■ Bright beer  | ■ Carbon filters    |
| ■ Spent grain  | ■ Yeast propagation |
| ■ Hot liquor   | ■ Hop cannons       |
